Dear Ms. Henderson:

Please allow me to express my sincere appreciation and gratitude for the outstanding program you presented to our students on September 17 on your book, "Why You Talk So White". The presentation was creative, full of energy and underscored the importance of both exceptional interpersonal and writing skills for students to possess in competing in today's society.

The students in attendance embraced your candor and insight and were appreciative of the opportunity to dialogue with you one-on-one during the book-signing following your presentation and later in Emlen Hall.

As an alumna of Cheyney University, we are so very proud of you and your accomplishments. You serve as an inspiration to us all. You represent our hopes and wishes for each and every student here at Cheyney University and we wish you the very best as you continue on your career path.

Best Wishes,

Valerie L. Epps
Associate Provost for Student Services
