Subject: Presentation Advice

Dear Sylvia,

So simple, yet so helpful. One single suggestion from you helped me overcome years of fear of standing in front of people to present to them. I don't think I will ever be as comfortable making presentations as you are but you sure helped me get over a barrier I've had for a long time. I admire how you make it look so easy. Thank you. Any time you need help with the documentation coding you know where to come. This is my world!
