Dear Sylvia:

It is with great pleasure that I write to you on behalf of my organization to thank you for the more than well done workshop that you did for our immigrant young leaders from across the nation on August 23<sup>rd</sup> and 24<sup>th</sup> of this year.

The "Present with Power" interactive training provided all the materials that our leaders needed to continue their plight for a higher education in this country. The critiqued presentation sessions and the quality reference materials that they received from you not only were extremely helpful when they went to lobby congress members during their stay in Washington, but continue to be a valuable tool for them to use in their work back home.

Here are some of the comments the participants had to say about you and the workshop. "It was very helpful to learn how to speak to an audience." "Sylvia was excellent at explaining everything in a very clear and detail manner." It is really helpful that all the information was available to us in a binder; we generally tend to lose notes, also the content couldn't be clearer."

As you can see, the training really was of great value for our students and my organization. I hope you can continue to bring your enthusiasm and knowledge to many more in the years to come.

Sincerely,

Germonique Jones  
Director of Communications
